Front-end Developer with background in digital marketing. Earned a certificate in Full Stack Web Development from the University of Pennsylvania Coding Boot Camp, and Digital Marketing certification from BrainStation, with developed skills in HTML5, CSS, Javascript, and responsive web applications. Quick learner and innovative problem-solver who is eager to develop functional and impactful web designs that provide unique user experience. I applied React Js and in recent project. I volunteered on a team of three to develop a functional e-commerce website that helped a local business owner to sell their products online. I enjoy working in teams, contribute with creative ideas and insights to deliver optimal results.
